PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience specializing in **Python, SQL, DBMS, Linux/Unix**, along with strong expertise in **artificial intelligence and machine learning**, data preprocessing, and model deployment, with a proven ability to design and deploy data-driven solutions. My work focuses on building AI/ML applications, automating workflows, and improving model accuracy and maintainability.

TECHNICAL SKILLS

Programming: Python, C, SQL, Linux/Unix | **Cloud & DevOps:** AWS(Bedrock), Azure(Foundry), Git, GitHub
AI/ML Frameworks: TensorFlow, Keras, PyTorch, Scikit-learn, Hugging Face Transformers, LLMs, RAG Pipelines
ML Specializations: Machine Learning, Deep Learning, NLP, Computer Vision, CNNs, Model Deployment
Data Engineering: Pandas, NumPy, ETL Pipelines, Data Cleaning, Feature Engineering, Data Visualization
Tools & Platforms: Jupyter Notebook, VSCode, PyCharm, Oracle SQL Developer, Kaggle, Langchain

PROFESSIONAL EXPERIENCE

- | | |
|---|--|
| Software Engineer
<i>HCLTech</i> | Nov 2022 – Present
<i>Hyderabad, India</i> |
| <ul style="list-style-type: none">Applied expertise in SQL and DBMS to manage, query, and process large-scale datasets efficientlyResolved application issues and enhanced system reliability through debugging, performance tuning, and root cause analysisWorked extensively in Linux/Unix environments to support development, deployment, and system operationsRecognized as Top Performer for two consecutive years for outstanding contributions automation solutions | |
| Machine Learning Intern
<i>Pantech Solutions</i> | Aug 2025 – Dec 2025
<i>Remote</i> |
| <ul style="list-style-type: none">Built optimized data preprocessing pipelines using Python frameworks reducing model training time by 30%Performed advanced feature engineering and hyperparameter tuning, achieving improved model accuracy through systematic experimentationFine-tuned classification models and neural networks for healthcare analytics applications, strengthening expertise in NLP and deep learning | |
| AI/ML Research Scholar
<i>HCLTech</i> | Nov 2021 – Nov 2022
<i>Hyderabad, India</i> |
| <ul style="list-style-type: none">Researched and implemented advanced ML techniques, contributing to optimized model architectures through systematic experimentationDeveloped deep learning pipeline for breast cancer detection achieving 95% accuracy using TensorFlow and Keras on medical imaging data | |

KEY GITHUB PROJECTS

- | | |
|--|------|
| GPT-Style Large Language Model (LLM) from Scratch <i>Python, PyTorch, NNs</i> 🔗Link | 2026 |
| <ul style="list-style-type: none">Developed a GPT-style LLM from scratch by implementing the Transformer architecture, Multi-head attention mechanism, and autoregressive text generation. | |
| Personal AI Chatbot with RAG Integration <i>Python, Langchain, RAG, FastAPI</i> 🔗Link | 2026 |
| <ul style="list-style-type: none">Built and deployed an AI-powered portfolio assistant using FastAPI, LangChain, Gemini, and RAG techniques. | |
| Social Distance Monitoring using YOLOv8 & OpenCV <i>Python, OpenCV, YOLOv8</i> 🔗Link | 2026 |
| <ul style="list-style-type: none">Developed a real-time social distance monitoring system to detect & identify distancing violations from live video. | |

EDUCATION

- | | |
|--|--|
| Birla Institute of Technology and Science (BITS Pilani)
<i>Bachelor of Science in Design and Computing – CGPA: 8.84/10</i> | Feb 2023 – Feb 2027
<i>Rajasthan, India</i> |
| Indian Institute of Technology (IIT Ropar)
<i>Minor Degree in Artificial Intelligence – CGPA: 8.0/10</i> | 2024 – 2025
<i>Punjab, India</i> |

CERTIFICATIONS & ACCOMPLISHMENTS

Microsoft Azure AI Engineer – **Microsoft** (Apr 2026) | Microsoft Fabric Data Engineer – **Microsoft** (Mar 2026)
GitHub Copilot Certification – **Microsoft** (Oct 2025) | Machine Learning Internship – **Pantech Solutions** (Aug 2025)
Python Libraries for Data Science – Simplilearn (Dec 2025) | Data Science Tools – **IBM** (Dec 2025)
