PROFESSIONAL SUMMARY

AI Software Engineer with 3+ years of experience specializing in **artificial intelligence and machine learning**, along with a strong expertise in Python programming, data preprocessing, and model deployment, with a proven ability to design and deploy data-driven solutions. My work focuses on building AI/ML applications, automating workflows, and improving model accuracy and maintainability.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL | **Cloud & DevOps:** Amazon(Bedrock/Sagemaker), Azure, Git, GitHub
AI/ML Frameworks: TensorFlow, Keras, PyTorch, Scikit-learn, Hugging Face Transformers
ML Specializations: Machine Learning, Deep Learning, NLP, Computer Vision, CNNs, Model Deployment
Data Engineering: Pandas, NumPy, ETL Pipelines, Data Cleaning, Feature Engineering, Data Visualization
Tools & Platforms: Jupyter Notebook, VSCode, PyCharm, Oracle SQL Developer, Kaggle, GitHub Copilot

PROFESSIONAL EXPERIENCE

Software Engineer

HCLTech

Hyderabad, India

Nov 2022 – Present

- Engineered and deployed scalable AI/ML that improved automation **efficiency by 40%**, reducing **manual effort by 15+** hours per month
- Leveraged SQL and data analytics to **extract actionable insights from large datasets**, improving decision making speed by 20%
- Recognized as **Top Performer for two consecutive years** for outstanding contributions to AI/ML initiatives and delivering high-impact automation solutions

Machine Learning Intern

Pantech Solutions

Aug 2025 – Dec 2025

Remote

- Built optimized data **preprocessing pipelines** using Python frameworks reducing model training time by 30%
- Performed advanced feature engineering and hyperparameter tuning, achieving improved model accuracy through systematic experimentation
- Fine-tuned classification models and neural networks for **healthcare analytics applications**, strengthening expertise in NLP and deep learning

AI/ML Research Scholar

HCLTech

Nov 2021 – Nov 2022

Hyderabad, India

- Researched and implemented advanced ML techniques, contributing to optimized model architectures through systematic experimentation
- Developed **deep learning pipeline for breast cancer** detection achieving 95% accuracy using TensorFlow and Keras on medical imaging data

KEY GITHUB PROJECTS

Social Distance Monitoring using YOLOv8 & OpenCV | Python, OpenCV, YOLOv8

2026

- Developed a real-time social distance monitoring system to detect & identify distancing violations from live video.

Custom Face Detection with Database | Python, OpenCV

2026

- Engineered an intelligent face recognition system capable of detecting and identifying individuals in real time with custom facial database

Stock Price Prediction using LSTM | Python, Scikit-learn, Sequential Model

2026

- Developed an LSTM-based stock prediction model achieving an RMSE of 2.31 on financial time-series data.

EDUCATION

Birla Institute of Technology and Science (BITS Pilani)

Feb 2023 – May 2027

Bachelor of Science in Design and Computing – CGPA: 8.84/10

Rajasthan, India

Indian Institute of Technology (IIT Ropar)

2024 – 2025

Minor Degree in Artificial Intelligence – CGPA: 8.0/10

Punjab, India

CERTIFICATIONS & ACCOMPLISHMENTS

Microsoft Azure AI Engineer – **Microsoft** (Apr 2026) | Microsoft Fabric Data Engineer – **Microsoft** (Mar 2026)

GitHub Copilot Certification – **Microsoft** (Oct 2025) | Machine Learning Internship – **Pantech Solutions** (Aug 2025)

Python Libraries for Data Science – Simplilearn (Dec 2025) | Data Science Tools – **IBM** (Dec 2025)
